Fall and winter overcoats. Cost

only.

AT BARROW'S.

Three houses were moved from

Tombstone to Pearce yesterday, and

five wagons loaded with freight for

merchants there, also went out.

It clouded up again this morning

and very much as if we were to have

more rain, but the clouds broke away

by noon it was clear and pleasant.

A number of young people from

Pearce will be over tomorrow to attend

the ball and spend New Year in Tomb-

stone. Other sections about the coun-

ty will also be represented.

The Citizen says: Z. L. Tidball,

formerly U. S. marshal of this territory,

is enjoying good fortune in the

City of Mexico, where he holds the

position of general manager of the

## 100 FEET DOWN A SHAFT

And Still Lives—E. A. Fin-

len's Narrow Escape.

E. A. Finlen who was recently in Tombstone and Pearce, later leaving for Jerome where he secured employment at the Jerome smelter, had a narrow escape from death last week. The Jerome News says Finlen had a few hours of idleness thrust upon him Wednesday morning, and to fill up the time thought he would take a look around the works. He strolled into the 50-foot tunnel, and while trying to look down into the mysteries of the shaft a cage came along at the rate of about a mile a minute, hit Finlen on the head and carried him down the shaft 100 feet to the 150-foot level. The arrival of the cage was the last that Mr. Finlen remembers of his eight-second, and when he returned to consciousness he was in the hospital with fourteen stitches along the left side of his head just above the ear. He is all right and will be at work in a few days.

## The Tyranny of the Desk.

We will suppose that your occupation is sedentary—that you are chained, so to speak to the desk in some counting house or perhaps to the loom in some vast mill where you are compelled to labor from morning to night. Sunday is your only day of relaxation. You return home every evening wearied mentally and bodily. Your nerves and strength begin to fail. What will most effectively recuperate your vital energy? The weight of evidence points to no other conclusion than that Hostetter's Stomach Bitters is your safest, most reliable sheet anchor. Use it persistently, and your system will soon regain its pristine vigor. Every function will receive a healthful impulse. There is no remedy to equal the Bitters for nervousness and want of sleep, dyspepsia, constipation and biliousness. It cures and remedies all forms of malariar disease, and is a preventive of heatstroke and neuritis.

## THE EASY ENOUGH.

The New Strike is Holding its Own.

The strike made by John Rabey below town, as already published in the PROSPECTOR, still hold out and is improving. Some five sacks of ore have been taken out and soon a shipment will be ready. We stand corrected on the name of the mine which, instead of the Wedge is significantly called the Easy Enough.

It would seem that the find was made easy enough, being only six feet from the surface, and as the owners tumbled into such good fortune, the Easy Enough is doubtless revered with respectful regard. Mr. J. F. Ziegler, who is now visiting relatives in Mokelumne Hill in Calaveras county, California, is half owner in the Easy Enough and before he left he provided with his partner for the assessment work which thus developed into what may prove a bonanza.

## The Discovery Saved his Life.

Mr. G. Caillouette, Druggist, Beaver ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or home without it." Get a free trial the Tombstone Drug Store.

Cattle buyers are reported numerous in this county and the cattlemen state that good prices are offered. The cattlemen have a prospect of enjoying a well deserved harvest for a few seasons to come.

Cramp, the Philadelphia ship builder began two years ago to make extensive and expensive experiments for the manufacture of smokeless gunpowder and also cellulose, with which to line ships and incidental to the researches in that field the people he employed have discovered various uses to which the cornstalk could be applied, which, he declares, will make the value of corn not less than \$5 per acre.

Mr. Jas. F. Lineman an electrician of San Francisco is a visitor to Tombstone. Mr. Lineman is seeking health and could find no better place than Tombstone. He states that after two days he already find little relief and will probably remain with us all winter. The Tombstone altitude seems just right for his trouble and considers himself fortunate in coming here.

## SETTLED AT LAST.

Was at First Indignant but

Finally Cooled Off.

An official communication, says the Silver Belt, has been received from the auditor of the postoffice department, addressed to J. H. Hamill, late postmaster at Globe informing him of the final audit of his postal account, and enclosing a check for eighteen cents, the balance found to be due him. We were at first indignant that this money justly due us had been withheld for more than fourteen months, and meditated returning the check, accompanied with a demand for interest. However, upon further consideration we concluded to retain the check and have it framed, as its value as a work of art is greater than the written amount. The check is signed by the third assistant postmaster general, who must be a great man as his chirography is indecipherable.

## Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Tombstone and any Drug Store. Regular size 50c. \$1.00

## THIRD IN THE LIST.

Arizona is Still in Its Infancy in Mining.

The Los Angeles Times correspondent believes that only in irrigation has Arizona a future. Like all things human, Los Angeles Times correspondents are liable to err, and in this case the error is quite apparent. Arizona today stands third in the list of copper producers, says the McLaughlin Miner, and sixth in the list of producers of precious metals. Yet Arizona is in its infancy in mining. Within two years it will equal, if not surpass Montana as a producer of copper and undoubtedly will be fourth in the production of gold and silver. The Times jumps at conclusions and has no hesitancy in telling a falsehood to make a readable article.

## FOR OVER FIFTY YEARS.

An old, well-tried remedy. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

New line of clocks at

WOLCOTT'S

The little son of Deputy U. S. Marshall Nat Hawke, who had a narrow escape from death on Christmas day, is recovering and will soon be all right. In attempting to climb from the top of a building into a tree, the lad lost his footing and fell a distance of some 12 or 14 feet, striking on his head. It was feared that his neck was broken. Dr. Gaff was called and administered to the unfortunate boy, who was unconscious for several hours. Fortunately, he escaped with only a slight injury.—Citizen.

The mangled remains of a human being were discovered on the railroad track one mile west of Mammoth Tank last Saturday. Papers found on the dead man bore the name of Anthony Barry and the address Sacramento, California. The body was strewn along the track for a great distance and was gathered up with shovels and buried where found. It is thought the unfortunate man was stealing a ride on the break-beam of a freight car, when in some unaccountable manner he rolled off and went to his death in the above horrible manner.—Yuma Sentinel.

## STATISTICS.

Number of People Killed in

Railroad Accidents.

It is a remarkable fact that a total of 6,136 persons were killed, and 33,745 were injured upon the railways of the United States last year. The largest number of accidents occurred at highway crossings. From this cause 505 persons were killed. Throughout the United States only 40 persons were killed in collisions during the year and only 97 were injured; only 47 were killed by derailment, and only 84 were injured, which shows that the larger part of the fatalities caused by railways is due to the carelessness of the public.

## Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merit. These pills are easy in action and are particularly effective in the cure of constipation and sick headache. For malaria and liver troubles, they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels, greatly invigorate the system. Regular size 25c. per box. Sold by Tombstone and Bisbee druggists.

## Advertised Letters.

The following is a list of letters remaining in the general delivery at the Tombstone postoffice for the week ending December 26, 1896: John M. McGinnis, S. D. Corley, Louis Museo, Frank Nichols, L. Williams, Harro Sandoval. When calling for above letters, say advertised, giving date of advertisement.

## REVISION OF LAW.

Lawyers Differ as to What is a Valid Claim.

Colorado people are agitating a revision of the mining laws. It is claimed that under the present congressional law, there is a wide diversity of opinion among lawyers regarding what constitutes a valid location.

The United States supreme court has passed on several of the disputed points but have not touched on the side line and end line questions as yet. To relieve all doubt it is proposed to have an amendment passed by congress clearly defining this point. It would undoubtedly meet with the approval of the miners of the whole country.
